

Swift Print Banner Stands

\$105.00 *does not include banner*

Old reliable double sided telescopic banner stands that can be configured as either portable banner stands or retail banner stands. The standard 12" square base is ideal for retail use, or at no extra cost, you can choose the folding Travel Base for tradeshow use.

Graphics up to 3/32" thick are held to the top and bottom crossbars with clear SnapGraphics Grippers. The patented design closes easily with the graphic inserted, and the gripper lobe engages and compresses the graphic against a soft cam surface creating incredible retaining power. Graphics can be changed in seconds and no special treatment is required for the graphics. The center pole can be telescoped up to 72" high, and the bottom graphic rail holder slides up and down the center shaft for infinite adjustability so various sizes and shapes of banners can be used to create different effects.

Available in black or silver finish.

This Banner Stand has the following features:

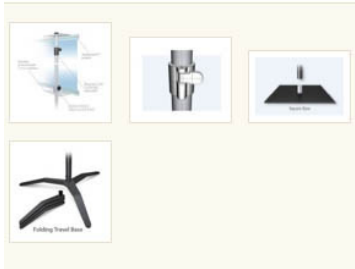

Graphic Width: 24"

Graphic Height: up to 72"

Graphic attachment to rails: Clear plastic SnapGraphics Gripper

Setup Time: 10 minutes

Case: None

\$94.00 *does not include banner*

Promo One Sided Banner Stands are telescopic banner stands that can be configured as either portable banner stands or retail banner stands. The standard 12" square base is ideal for retail use, or at no extra cost, you can choose the folding Travel Base for tradeshow use. Other tradeshow options include the padded travel bag with protected graphic storage, and for both tradeshow or retail use are the 50 watt spotlight and literature baskets.

Graphics up to 3/32" thick are held to the top and bottom crossbars with clear SnapGraphics Grippers. The patented design closes easily with the graphic inserted, and the gripper lobe engages and compresses the graphic against a soft cam surface creating incredible retaining power. Graphics can be changed in seconds and no special treatment is required for the graphics. The center pole can be telescoped up to 72" high, and the bottom graphic rail holder slides up and down the center shaft for infinite adjustability so various sizes and shapes of banners can be used to create different effects.

Case: None

\$50.00 *does not include banner*

Economy Stand holds a 24" x 62" banner and is our least expensive banner stand option. When set up, the banner stand frame looks like the letter X. This style of stand is extremely lightweight and simple with a reputation for being the best cheap banner stands. There are 4 fiberglass arms that reach from a center hub to the 4 corners of the banner and hook through grommets to hold the banner under tension. The tips on the bottom two arms sit on the ground and a rear folding leg balances the banner like a tripod.

Economy Small banner stands have the following features:

Graphic Width: 24"

Graphic Height: 62"

Graphic attachment to stand: grommets in corners

Setup Time: 2 minutes

Case: nylon carry bag

Economy Large banner stands have the following features:

Graphic Width: 31.5"

Graphic Height: 79"

Graphic attachment to stand: grommets in corners

Setup Time: 2 minutes

Case: nylon carry bag

\$84.00 *does not include banner*

Economy Retractable is one of the best values we offer because it is one of the highest quality banner stands on the market at this price. Roll up banner stands, also called retractable banner stands, have a mechanism that rolls up the graphic into the base when it's not in use. This entry level retractable banner stand is great for those on a budget or who don't expect to use the stand heavily or for a long period of time. Great as a showroom display, for use at local trade shows or large volume purchasers.

Compared to similar stands on the market, this stand features a quality roller mechanism from Space, the same company that makes some of the highest quality stands in the industry. It also has a pole and top rail that are similar to high end stands, rather than the unsightly metal hook that remains visible above the banner on other similar models. It also has a higher quality carry bag making it an exceptional value for the money.

Econo Stand roll up banner stands have the following features:

Graphic Width: 33.4"

Graphic Height: 79"

Graphic attachment to mechanism: attaches to plastic leader

Graphic attachment to head rail: snap rail

Setup Time: 30 seconds

Case: Padded carry bag

\$114.00 *does not include banner*

For the price and ease of use we recommend this over the Economy Retractable

Elite Retractable telescopic retractable banner stands set a new entry price for quality roll up banner stands. Unlike other pull up banner stands you may see for sale at this price, this is not a low quality stand. This model has a swing out foot for stability and features snap rails on both the headrail and roller mechanism to attach the banner, so it's one of the only pull up stands on the market that doesn't require any adhesive or other device attached to the banner in order to install it on the stand. This makes the graphic extremely easy to change and ideal for anyone who needs to make frequent graphic changes, or wants to be able to change out the banner themselves. The fact that there is no leader for attaching the graphic makes it very reliable as well. The Expo also now features an upgraded lever lock telescopic pole for easier and more reliable operation, a feature normally only found on high end models.

The Elite Retractable displays a graphic with a visual area of 33.4" wide x 63" to 84" high.

Comes complete with its own padded carrying bag.
